

INNOVATION IN CREMATORIUM TECHNOLOGY BY NERDC

Crematorium technology was introduced by NERD Centre, before 26 years ago approximately. Another advancement to this existing technology was introduced by NERDC during the last week. NERD Centre held a forum to introduce and transfer this multi-chamber, two stage burning system to the industry. All of NERDC licensees, representatives of relevant local authorities, and resource personnel from the Central Environmental Authority were among the gathering. The forum was held on 10th July 2020 at Kulasinghe Auditorium of NERDC, Ekala, Ja-Ela.
