

National Engineering Research Symposium 2020 organized by NERDC

The National Engineering Research Symposium 2020 (NERS 2020); enriched with the theme of **“Engineering Innovations and Development Towards the Vistas of Prosperity”**, was held on 10th December 2020 at NERDC premises. There were 52 papers selected and out of those, 37 papers were selected as full papers publication and 16 papers were selected as extended abstracts presentation.

The reviewing panel comprised of 29 external reviewers and 18 internal reviewers from different categories of professions. The presenters as well as the participants joined physical and virtual modes and the Chairman of the NERDC Centre, Professor Leelananda Rajapaksa addressed all physical and virtual gatherings during the inauguration. The sessions were scheduled under 5 major engineering discipline areas such as; Chemical & Process and Materials Engineering, Civil Engineering, Computing, Electrical, Electronics and Communication Engineering, Energy and Environmental Engineering and Mechanical and Mechatronics Engineering.
