

PORTABLE MILKING MACHINE

Though medium and large scale farms use advanced type large scale milking machines, small scale farmers who have few cows have no option other than traditional method of milking by hand.

As a solution for the small scale farmers, Portable Milking Machine has been developed and introduced by the NERD Centre with collaboration of National Enterprise Development Authority (NEDA).

Features

- ❖ Capacity : 10 Lit.
- ❖ Vacuum Pressure : 50 KPa
- ❖ Average milking time : 08 min

Advantages

- ❖ Low Cost
- ❖ Portable
- ❖ User Friendly Operation
