

Re-establishment of Flood Victims – Backed by NERD Center

The huge displacements took place due to unexpected floods appeared in the country. We lost lives, properties, flora & fauna and much more as a country. Meantime the re-establishment process has already started with the favor of government as well as people, organizations who concerned on peoples' wellbeing in these adverse scenarios.

NERD Center staff also actively involved in the construction process of certain buildings, roads & bridges which were readily washed off and highly got damaged. It was not an easy task, since most of the things had washed away. Starting from the ground level with very limited resources it took several nights & days continually to re - establish certain buildings & other basic needs that people required. NERDC staff worked hard to make these tasks a reality with many difficulties meantime enjoyed by reaching the set goals. These are some snap shots elaborate few sides.
