

Training Program on Cement Soil Block Manufacturing Technology

The very first training programme of the year on Cement Soil Block Manufacturing Technology was held at TMD (RPC room) on 17th Jan 2018 at 9.00AM in NERD Centre. The objective of this training

program is to train participants to get started their own enterprise on cement soil block manufacturing and finally be the leading entrepreneurs in the industry. This is a single day program and theory session was undertaken by

Ms. Anuruddhika Digala and the practical session was taken over by Mr.

A.D.A.R. Premawansa.

At the end of training program a valuable certificate was awarded to trainees enabling them get registered as temporary licensees of

NERDC on cement soil block manufacturing. The feed back was very positive from the participants on this program.
