

## Workshop on NERDC Foot Bridge Technology for Licensees

Work shop on NERDC Foot Bridge Technology was held at Kulasinghe auditorium on 04<sup>th</sup> Dec 2017 at 9.00AM in NERD Centre. The objective of this work

shop was to issue

applications for get registered as foot bridge manufacturers or foot bridge components manufacturers and to make them aware about the upcoming business opportunities

whilst reminding them to renew the existing license as NERDC Cost Effective Building Contactors for year 2018.

The Director General of NERDC Eng. D.D.Ananda Namal mentioned

about the objectives of the work shop and the business opportunities arrived upon the cabinet approval for 1000 foot bridges to be constructed island wide, using NERDC Foot Bridge Technology whilst warmly welcoming

the all licensees. Approximately 90 licensees presented for the occassion and the Deputy Director General (R&D) Eng. G.K.K. De Silva delivered the introduction

to the work shop. Mr. W.P.R.D. Weerasinghe & Eng. Wasantha Perera conducted the work shop on two types of NERDC technologies available for foot bridge construction.

Discussion panel lead by the Deputy Director General (R&D) Eng. G.K.K. De Silva and other members were Director Techno Marketing Department Eng. Shantha Jayasinghe, Director Civil Engineering Department Eng. J.A.C.Chrishanthi, Eng. Wasantha Perera and Mr. W.P.R.D. Weerasinghe. After the discussion all licensees had the opportunity of observing the work shop and the models of foot bridges & retaining walls constructed at NERDC Technology Park.
