

Technology Fact Sheet

Technology/Product

Small Scale Milking Machine

Year

2015

Patent Details

None

Description of technology

Features of Machine

This Small Scale Milking machine is used by small scale farmers who have few cows and have no option other than traditional method of milking by hand. Specifications of the machine are as follows;

1. Capacity of tank - 10 Lit.
2. Vacuum Pressure - 50 kPa
3. Average Milking Time – 10 min

General Information

1. Dimensions – 2mx.75mx1m
2. Total weight –
3. Washing method – Manual

Advantages/Benefits

1. Low cost
2. Portable
3. User friendly operation

Areas of application

- Small scale milkers
- Small scale farmers
- Fresh milk collecting centres
